

Gate closing springs

When mounted, these gate springs will turn any gate into a self-closing gate. The rust resistant black enamel finish extends the life of the spring. Adjustable tension allows regulation of the gate's closing speed.

FOR WOOD AND METAL GATES:

RG 18667 fits gates that weigh up to 20 lbs.
RG 18504 fits gates that weigh up to 30 lbs.
RG 18668 fits gates that weigh up to 50 lbs.

HIGH PERFORMANCE SPRING:

Heat treated torsion spring, tempered for lasting performance with an adjustable tension feature.

TWO DIFFERENT STYLES:

In-Line and off-set mounting bracket styles.

DURABLE FINISH:

Baked enamel black painted finish.

INCLUDES INSTALLATION FASTENERS

RG 18668 (10 in. x 3.8 mm dia.)

RG 18667 (8 in. x 3.4 mm dia.)

RG 18504 (9 in. x 3.8 mm dia.)
