

Matte black hardware

Matte black is trending really strong at the moment, making its mark on fashion, home decor and even appliances. The popularity of matte black comes from being a neutral color, it's such a versatile finish that can go with any design style.

OPPORTUNITY:

Emerging trend for in-home décor with high customer demand.

TIMELESS:

Classic design color that never goes out of style, whether you have a traditional, contemporary or modern design aesthetics.

AESTHETICALLY PLEASING:

Use the matte black finish in closet or security hardware to make a subtle impression.
